

PEARSON COLLEGE FAST FACTS

March 2016

WHO WE ARE

Pearson College UWC is Canada's most international school and is one of 15 prestigious United World Colleges around the globe. The College is located along the wooded shores of the Pacific Ocean at sheltered Pedder Bay, on the southernmost tip of Vancouver Island, just outside Victoria, B.C. Pearson is a two-year, pre-university school for up to 200 students from over 100 countries who live, study and learn together pursuing the International Baccalaureate. A group of visionaries founded the College in 1974 with the goal of creating a national memorial to Nobel Prize winner and former Prime Minister of Canada, Lester B. Pearson, in the form of a school that aligns with the United World College (UWC) mission: **To make education a force to unite people, nations and cultures for peace and a sustainable future.** More than 40 years later, this mission continues. Today, about 4,000 students have graduated from Pearson College. Its alumni are determined to make a positive difference in the lives of others. For more information, visit us online at pearsoncollege.ca.

CURRENT PRIORITIES

As we build our vision for the next 40 years, three primary objectives guide our work:

- To enhance public awareness and community engagement
- To ensure our program, both academic and experiential, is world-class and cutting-edge
- To ensure the College is on a sustainable financial footing

SCHOLARSHIP AWARDS

In the 2016/17 academic year, **93%** of our students received full or partial scholarships — either from Pearson College or from an outside organization.

COST OF A PEARSON COLLEGE EDUCATION

Annual fees for Pearson College, including tuition, full accommodation and board, are currently listed at \$49,500 per year. This year, the full fee was assessed only against the families of 7% of our students.

WHERE OUR STUDENTS GO

Over the last two years, Pearson College graduating students went on to study at universities in these regions:

47% - US

11% - UK

2% - ASIA

6% - UNKNOWN

25% - CANADA

8% - EUROPE

1% - LATIN AMERICA

SUSTAINABILITY

Since 2008, the College has reduced electricity, natural gas, water and paper use by 10%. All food scraps are recovered for composting and ongoing improvements to buildings are further enhancing energy efficiencies. Sustainability remains a core principal of the learnings and practices of the College.

RACE ROCKS ECOGUARDIAN

Since March of 1997, Pearson College has acted as ecoguardian of Race Rocks Ecological Reserve, when it took over a long-term lease from BC Parks to manage the area and provide a human presence for the protection of the island. The site is staffed by the official Pearson College Ecoguardian, and has become a learning station for the students of Pearson College, due to the rich marine environment. It also acts as a test area for some of the College's most impressive sustainability initiatives. For example, all electricity for the houses on Race Rocks is generated by the [integrated energy system](#), as there is a limited amount of energy available on the islands. Because of its high-current area, there is an exceptional variety of marine life found on Race Rocks. It remains a haul-out area for California and Northern sea lions, as well as a birthing rookery for Harbour and Elephant seals. View the [live video feeds](#) on Race Rocks, thanks to a remotely operated camera system.

KEY FACTS ABOUT OUR ALUMNI

- Our students have come from over 150 different countries since 1974
- More than 4,000 Pearson scholars have come through campus since 1974
